Comment: Please do not implement rules that take away the ability of users to install the software of their choosing on their computing devices. Additional points of emphasis you should consider adding:

Wireless networking research depends on the ability of researchers to investigate and modify their devices.

Americans need the ability to fix security holes in their devices when the manufacturer chooses to not do so.

Users have in the past fixed serious bugs in their wifi drivers, which would be banned under the NPRM.

Not fixing security holes either feeds cyberthreats or increases electronic waste.

Billions of dollars of commerce, such as secure wifi vendors, retail hotspot vendors, depends on the ability of users and companies to install the software of their choosing.
